Challenges - time

8th Year

Challenges - climate

Challenges – sunproof colour

Limey Circle x

01_430

Challenges – good plant habit

Daffodils are Mediterranean

- France to Morocco
 - Coast to mountains
 - Valleys to cliff faces
 - Acid to alkaline soils
 - Autumn to Spring
 - Small to large
-
- Canberra is a good average and we can grow most daffodils easily.

Autumn flowering species

N. broussonetii

N. viridiflorus

N. elegans

N. serotinus

N. cavanillesii

N. miniatus SFR
