LATE CATALOGUE

BULBOCODIUMS

Mixed Selected seedlings.

This year a lot of bulbs were lifted and heat treated. Everything has now been replanted except for some left over bulbocodiums that are not exceptional enough for me to grow in quantity but which are too good to throw away. Good, for me here in Canberra, means they are hardy outdoors, flower well, and increase well without splitting into a lot of small non-flowering bulbs.

The bulbs have been heat treated. Some are flowering here now. Of these, some show a little distortion from the heat treatment but others look okay. They should flower properly in 2025.

Colour ranges from white to yellow.

Flowering times range from autumn to spring. Most are winter flowering and can be included in the general name "Winter Colors".

1 bulb \$3

4 different bulbs for \$10

50 different bulbs for \$100 while stocks last.

TO ORDER

Please contact by email to confirm order and arrange payment. Paypal is available.
Please add \$15 for Packaging and Postage.
