All collections are **open pollinated** except selfed 10\_04MB and some special autumn tazetta crosses.

Due to low numbers some seeds have been offered by cross rather than selection number.

I understand there are no international barriers to seed distribution (permit required to the U.S.) so these are a great opportunity for international growers. Distribution by seed also decreases the risk of spreading viruses.

Please contact me at [info@trevaniondaffodils.com.au](mailto:info@trevaniondaffodils.com.au) to confirm order and organise payment. Payment by PayPal is now an option.

All prices are in Australian dollars.

Post and packaging is usually \$2-\$5.
